

Tech Wizard

NAVIGATING THE DIGITAL WORLD

7

About the Series

Tech Wizard is a comprehensive, exhaustive computer series for class 1 to 8. This series is based on Windows 10 and MS Office 2016 with a glimpse of Windows 11. New National Education Policy (NEP) 2020 and National Curriculum Framework (NCF) 2003 has suggested certain skills that should be learnt by them. These skills will help them in becoming successful, innovative, adaptable, and productive human beings in the various fields such as Digital Literacy, Coding, Computational Thinking and Artificial Intelligence in the rapidly changing tech-savvy world.

Special features of the series are as follows :

- The series navigates the landscape of a world powered by Electric vehicles and Metaverse.
- Sets within the futuristic landscapes of Neom city.
- Unfolds Kyra 'India's first virtual Influencer.
- Exploring innovative capacities & cutting-edge ability of ChatGPT, Dall-E, BARD, Myntra FashionGPT, Canva, MS Bing, Notion and GATO.
- Journeying into the corridors of Jio AirFiber, Li-Fi, Starlink by Elon Musk, 'TOR'—Dark Web.
- At the heart of the tale stands the enigmatic Sophia/Little Sophia Robot blurring boundary of HI & AI.
- Amidst the evolution, it explores the urgent call for action through 75th Azadi ka Amrit Mahotsav, G20 and SDGs.
- The innovative Google ARDA & Apple Air Vision Pro takes center stage, revolutionizing AR & reshaping human experiences.

Way Up is a complete series for classes 1 to 8 based on the National Curriculum Framework (NCF) 2020. This series seeks to develop the various language skills in students. This series is based on the principles of communicative approach that aims to make learning engaging and fun. This series follows an interactive method with the help of various characters that introduce each chapter, guiding the students the process of learning. It aims to cater to the linguistic and communicative needs of students, so that they can use English effectively, accurately and creatively in real-life situations to resolve their everyday problems and challenges.

SALIENT FEATURES

- The approach adopted is modern, realistic and student friendly and the language is simple and clear.
- The exercises follow the reading texts cover all aspects of language accretion and build higher order thinking skills in learners.
- Grammar Skills explains grammar topics selected carefully according to the level of students.
- Communication includes listening and speaking. These exercises facilitate fluency in oral communication, thereby building learner's confidence.
- Writing Skills aims at developing the writing skills of students.

SOCIAL APPROACH

Learning beyond books: towards society and self!

The **SOCIAL STUDIES SERIES** for Classes 1 to 5 is developed as per the **National Education Policy 2020** and the **National Curriculum Framework**, making learning experiential, engaging, and child-friendly.

The series begins with a child's immediate world—family, school, neighbourhood—and gradually expands to explore society, culture, history, geography, and civic values. Through **stories**, **activities**, **projects**, and **illustrations**, children observe, question, and connect knowledge with real-life experiences.

Aligned with NEP's vision, the series builds **curiosity**, **critical thinking**, **communication**, **collaboration**, and **empathy**. It helps children respect diversity, understand responsibilities, and care for people and the environment.

With features like **Let's Discover**, **Life Skills**, and **Class Discussion**, the series blends knowledge with **values** and **21st-century skills**, shaping learners into responsible and compassionate citizens.

ROOTSTOCK

A BOOK OF SCIENCE

ROOTSTOCK

Rootstock, a series of science book, is crafted as per the latest guidelines provides by the National Council of Educational Research and Training (NCERT) and National Curriculum Framework (NCF) that aimed at learning without burden and sense of student's self-reliance.

"I am not a teacher, but an awakener" said Robert Frost. The given series of books rightly justifies the statement. The mindset behind writing this series is to create interest and curiosity about the subject. Various day to day life skills are illustrated, pictured and presented keeping the requisite of young minds. All these not only provide the appropriate study matter but also create the lovingness and bonding with them.

Each chapter starts with *Have An Idea* which clearly states the main idea of the topics in the chapter. *Grasp Up* point out various difficult words to provide attention, *Pin It* recaps the chapter in short for quick revision at the end of each chapter. With the various tasks given to test the accuracy of young minds, many related jobs like *Thinking Skills*, *Hone Your Skills*, *Fun to Do*, etc. are provided to make all round knowledge hub for the students.

Teacher's desk at the beginning of each chapter helps the teacher to get an idea of scope of the chapter and *A guide to teacher* assists them how to encourage students and how to deal with various topics in the class or outside the class.
